15	02/11/2021	2021-02-031	DeGennaro, Steve	N/A	Several collectors and I were discussing the series 2013 \$5 Dallas replacement notes printed in February, May and June of 2014. The BEP reported 320,000 were printed in February at the FW facility, another 320,000 printed in May at FW and finally 3,200,000 printed in June, once again at the FW facility. None of these 3,840,000 notes have shown up in circulation. The only 2013 \$5 Dallas replacement notes showing up in circulation are notes above serial number MK09600001* and printed at the DC facility. Who would know if the Dallas replacement notes printed in FW were either mis-reported or not needed and destroyed ? Out of the almost 5 billion series 2013 \$5 notes printed, these 3,840,000 notes (2013 \$5 Dallas replacement notes) were the only notes reportedly printed at the Western Currency Facility. All of the others were printed in DC.	BEP FOIA
